Wheels of Fortune

Pardon my nostalgia but the **Sun Mountain Combo Cart** (\$469) has a retro look that takes me back to the 1960s. My mom, a recreational golfer, had a then cutting-edge one-piece pull-cart and bag that looked similar. There was a slot for each club, big wheels, and a seat edge to sit on. Her model was a beast. It was heavy and ate up a lot of trunk space but she pulled it a lot of miles in her day.

Sun Mountain's 21st century version makes hers look like a Model T. The Combo Cart is essentially a dream pairing of Sun Mountain's classic Speed Cart with a built-in rectangular bag. It's got three wheels, rolls easily, has 14 club slots, roomy pockets and the bag can be detached, if necessary. And yes, it comes with a retro perch to sit on. A seat on a pullcart? That's the definition of throwback.

Loaded with a full set of clubs, the Combo Cart weighs only 25 pounds and better yet, folds up into a startlingly small cocoon. The Combo Cart will be available in May. It would've made my mom smile.
