

## Sun Mountain Tour Series

Posted by Ed Travis in Apparel, Featured, Gear, News November 3, 2014

New for 2015, the Sun Mountain Tour Series includes a full-zip jacket (\$199), long-sleeve pullover (\$179) and pants (\$199). Making use of three-layer construction, the Tour Series has a waterproof, breathable membrane bonded to a four-way stretch shell and a soft, protective inner layer. The result is durable, lightweight, quiet, breathable rain gear that is the perfect protective outer layer.

Tour Series is fully seam-sealed, guaranteed waterproof and offers the convenience of a two-way front zipper and adjustable laser-cut cuffs. It may be worn alone for protection from wind and rain or paired with a Sun Mountain thermal pullover or vest for those brisk rounds.

The full-zip jacket is available in black, navy and titanium/steel/citron. The long-sleeve pullover is offered in gray, black, or royal, and the pants in black.
