1. Sun Mountain ClubGlider Meridian

Sun Mountain is a major player in golf industry, especially golf bags and carts. The ClubGlider Meridian is arguably the company's top-rated travel bag. In fact, it won Golf Digest's Editors' Choice in 2016. Lightweight at 11.3 pounds, the Meridian's leg mechanism extends and retracts in one simple motion, while the legs fold into the tray for easy travel. The wheels are castor and provide outstanding maneuverability. The bag, which is made of durable ballistic-style nylon, features two exterior pockets to hold your shoes or other gear. It's internal dimensions measure 52 inches by 14 inches by 14 inches, large enough to hold a stand or cart bag. The ClubGlider Meridian also has extra padding on the top of the case to ensure your clubs stay protected, which is what you want when you're traveling by airplane.
